

Furniture design and options are constantly changing. Instyle Seating furniture range is constantly evolving with new products being introduced and other products being discontinued. As Instyle Seating's product selection changes, we are happy to offer clearance items at very attractive prices. They may be the last of the range, original stock updated, or older items no longer being re-stocked.

chair

They are of equal commercial quality to those fully-priced, but may show some signs of being samples, used in display or warehoused for a period of time (slight marks, colour-variations). All clearance items are sold "as is". Our ability to provide a written quote and in-depth sales support is limited and reflected in their highly reduced price. They are not refundable, returnable or available for any exchange. Those flat-packed may require self-assembly (we are happy to confirm this). All clearance items retain their 12 months structural warranty.
